

Best Practices in Engagement of All Health Care Providers in the Management of Drug Resistant Tuberculosis

Best Practices in Engagement of all Health Care Providers in the Management of Drug-Resistant Tuberculosis **Author:** World Health Organization

Publication Date: 2015

Format: Manual

Physical Description: 25 p.: b&w; refs.

Language: English

Abstract:

This document shares best practices in engagement of health care providers in programmatic management of drug-resistant tuberculosis that have been documented in different countries and regions and implemented by different stakeholders. Case studies presented in the document are lessons learned for scale-up of public-private mix for the management of drug-resistant TB at country level.
